

INTEGRATED QUALITY, ENVIRONMENT AND SAFETY POLICY

Rev. 03 del 19.07.2023

Quality for us is having the mastery and safety of our activities.

Our company is based on the availability, desire and ability of the people who make it up.

People are our real strength. This leads to being able to guarantee our customers that our service is constantly compliant with what they expect.

Health and safety the company management is personally committed to ensuring the personal safety and health of each Worker.

In order to achieve this goal, the prevention of health and safety risks in our company are organized in such a way as to be an integral part of each processing phase.

The DdL confirms that it is its will that all workers refrain from carrying out actions that may involve a risk of damage to people or things and that they are also invited to report to their direct manager any dangerous situation and any machine or plant that is not safe.

As part of the established Corporate Mission, all Collaborators are required to undertake to implement what is necessary to prevent risks to health and safety according to the Responsibilities and Competences that have been assigned to each one.

Environment Cataforesi SRL aims at the continuous improvement of environmental performance, the reduction of the impact of company activities on the surrounding environment and compliance with the environmental laws in force at all administrative levels and in all production sectors.

Our goals are:

- Prevention of accidents and occupational diseases
- Commitment to continuous improvement of systems
- Maximum attention to the respect of the legislation on the SLL, through periodic checks of that compliance and external support of consultants
- Customer loyalty and satisfaction
- Expansion of production capacity
- Continuous technological innovation
- Constantly increase the skills and knowledge of the staff
- Protecting and enhancing the environment and taking all necessary measures to prevent pollution
- Implement the processes necessary to prepare and respond to potential emergency situations
- Promoting consultation and participation of workers and employee representatives
